

Help Bring Bible Studies and Leadership Training to Belize

This is an opportunity for your Women's Ministry or Bible study group to participate in equipping women, and supplying Bible study books to others in a third world country so that they can do something we take for granted ...study the Bible.

In September, 2004, the women of Roaring Creek, Belize, Central America were invited to hear a program provided by ProvenWay Ministries about the importance of studying your Bible. The goal of bringing this program to Belize was to identify, train, and encourage women who had a heart for leadership; to equip them to lead a small group Bible study. At this training, we were able to model what a women's Bible study looks like - women in small groups learning, sharing prayer requests, and fellowshiping together. As a result, leaders were put in place and Bible studies were formed. The women of Belize began finding hope through scripture in an oppressed land.

Today, ProvenWay provides this training in Belize on an annual basis, and supplies Bible study workbooks so the small groups can continue. Our prayer each year is that we can bring enough Bible study material for all God puts in our path. So far each year, our prayers have been answered

Please partner with ProvenWay by donating money to help provide Bible study materials for Belize, and making your church or organization aware of this important program. Your donations will not only buy a Bible study book, but help to rise up leaders who will continue to serve and disciple.

A \$10 donation will supply one Bible study book. Please complete the form below and send with your donations to the address provided. Or, you can go to our order/donate page of our website to donate online.

Thank you!
